

**SMOKING KILLS ITS USERS AND INNOCENT BYSTANDERS
- IT IS NOT COOL TO SMOKE**

DON'T START !

A personal message for you:

Worldwide the vast majority of smokers become addicted to nicotine before the tender age of 19 -

Preventing youth smoking requires political will on behalf of caring Governments. Cigarettes in Hong Kong remain too affordable, being 40% of the cost of a pack in Australia and only 69% of the same pack in Singapore. The Hong Kong Government made no tobacco excise tax increase in the 2012 budget and 16 days later the Hong Kong Chief Executive was seen partying with a Hong Kong tobacco tycoon in Macau. The buck stops at the top - Donald Tsang deserves the public contempt he is currently receiving.
